

A18 Enclosed Vibratory Bowl Automatic Nut Feeder

SKU: A18-189

A18 Enclosed Vibratory Bowl Automatic Nut Feeder

An 18" (457mm) diameter enclosed vibratory bowl automatic feeder bowl designed specifically for the automatic feeding of nuts to a drive head or nut dispenser assembly.

A18 Enclosed Vibratory Bowl Automatic Nut Feeder

Anatomy & Features

The A18 Series of vibratory bowl feeders comes complete with hardened tool steel and stainless steel escapement. Optic controls switch the bowl vibration on and off to prevent excessive wear and over-pressurization of escapement and tooling areas as seen on other manufacturer's systems.

The enclosed design of this feeder ensures minimal particulate contamination when delivering fasteners to a drive head or dispenser, while also serving to reduce the noise caused by the vibration of the drive cell.

- ✓ Resistant to wear & tear damage
- ✓ Standard polyethylene bowl coating
- ✓ Optional hard anodize or urethane bowl coating
- ✓ 3-Step fastener alignment verification prevents jams
- ✓ Hardened & heat-treated durable tool steel composition
- ✓ Longer run time between feeds due to less track level fastener jams
- ✓ Less pinch points & no mechanical adjustments for enhanced safety

Product Technical Data

Bowl Size	18" (457mm)
Fastener Delivery Method	Blow Feed Delivery
Max. Fastener Head Ø	19mm
Max. Fastener Length	76mm
Max. Fastener Shaft Ø	8mm
Fastener Type	Nut
