

SKU: HHD-137

SuperDrive Drive Head

An ergonomically designed heavy-duty, high-torque hand-held automatic screwdriver intended for use with tool stand support, and is designed to be compatible with many off-the-shelf torque reaction arms.

Anatomy & Features

An ergonomically designed heavy-duty, high-torque hand-held automatic screwdriver intended for use with tool stand support, and is designed to be compatible with many off-the-shelf torque reaction arms.

- ✓ 25 Nm torque capacity
- ✓ The SuperDRIVE will adapt to most brands of screwdrivers on the market
- ✓ Quick screwdriver bit change
- ✓ Sensors at slide travel limits
- ✓ Smooth movement
- ✓ Screwdriving head is based on the proven XMod drive head
- ✓ Can adapt to most screwdrivers on the market: DC, electric, or air
- ✓ Lightweight and easy to maneuver
- ✓ Reliable linear bearings on all movements for accuracy and long life
- ✓ True verticle movement – all motions are straight with no arcing motion
- ✓ Off-set trigger start is standard – allows good visibility of the workpiece
- ✓ Torque arm absorbs the torque reaction reducing operator fatigue
- ✓ Will help keep the screwdriver bit engaged reducing bit chatter and thus increasing bit life

Product Technical Data

Drive Head Type	Hand-Held
Torque Capacity	25 Nm
Approximate Weight	??
Approximate Width	??
Bit Extend	Magnetic Bit Extend, Vacuum Bit Extend
Max. Fastener Head Ø	19mm
Max. Fastener Length	76mm
Max. Fastener Shaft Ø	8mm
